

manzanilla Olive

The taste of Sevilla

manzanillaOlive *Industry leaders*

Founded in 2010 to offer our clients the best table olives and virgin olive oil. A modern cooperative with experience. Tradition and innovation that can be seen in our products.

Today we have our own international sales office in the United States and we market our products in over 20 countries. Our cooperative is recognized both in Spain and throughout the rest of the world. Our production processes are carried out under rigorous quality controls. Manzanilla Olive forms part of the leadership council of the PGI for Manzanilla and Queen Olive of Seville.

We market organic table olives and virgin olive oils that have been certified with the seal of Ecological Agriculture of the CAAE, which guarantees the natural properties of these products.

Through our innovative TraceOlive system we know the location and status of our olives at every moment, thereby assuring the maximum level of food safety for our clients.

Our varieties of olives

- ✓ Did you know that... It takes between 4 and 5 kilos of olives to produce 1 liter of olive oil?
- ✓ The age of the olive tree only affects the quantity of oil produced, not the quality.
- ✓ The color of the olive oil does not indicate the quality.

- ✓ Olive oil contains vitamins A, D, K and especially E.
- ✓ The secret to obtaining a high-quality oil: only the best olives, years of experience, and our innovative production capabilities.
- ✓ We produce olive oil from the varieties manzanilla of Seville, hojiblanca, arbequina, verdial, picual and lechín.
